Use Discord as an authorization system or use our API on behalf of your users. Add a redirect URI, pick your scopes, roll a D20 for good luck, and go!

Learn more about OAuth2

Redirects

You must specify at least one URI for authentication to work. If you pass a URI in an OAuth request, it must exactly match one of the URIs you enter here.

Add Redirect

OAuth2 URL Generator

Well, this doesn't do any good just sitting here. Pick the scopes your application needs to function and copy the URL below. Others can use that URL to authorize with your application.
